Vote

MAKE IT WORK NDIS 2019

The Federal election is just a few months away - and there is still so much to do to get the NDIS working the way it should.

Ahead of the May election, our politicians must take action to make sure the NDIS works for everyone who needs it.

To get our vote, politicians across the country need to show that they're listening. And that they are willing to roll up their sleeves and get the job done. They need to show they can deliver the NDIS we fought for.

Sign our petition to tell our Federal politicians that it's time to make the make the NDIS work for all of us.
